Computerization

## PROFESSIONAL SUMMARY

Information Systems student specializing in Accounting Computerization at Universitas Sriwijaya with proven expertise in data management, inventory operations, and process optimization. Strong analytical skills with hands-on experience in warehouse systems and statistical data validation. Available for freelance work in accounting, bookkeeping, data entry, and administrative services.

## EDUCATION

### Bachelor of Information Systems - Accounting Computerization

Universitas Sriwijaya, Palembang | 2025 - Present

### SMKN 1 Suak Tapeh - Accounting Major

Universitas Sriwijaya, Palembang | 2025 - Present

## PROFESSIONAL EXPERIENCE

### Warehouse Helper | PT Indomarco Prismaatama | 2024 - 2025

Managed fast-paced warehouse packing operations with zero error rate by implementing efficient workflow management and optimized work environment organization. Successfully achieved 100% monthly delivery quota targets through systematic packing processes and effective team coordination. Processed and verified daily inventory transactions using warehouse management systems while maintaining accurate stock records. Conducted regular stock checks and inventory reconciliation to ensure operational efficiency. Collaborated with cross-functional teams to meet tight delivery schedules and maintained compliance with quality control standards.

### General Staff (Internship) | BPS Kab Banyuasin | 2022 - 2023

Validated population census data achieving 98% accuracy through dual verification methodology: (1) Checker Entry method for systematic error detection in digital records, and (2) Field Checker method through on-site village visits for direct demographic validation. Performed comprehensive data entry and verification ensuring data integrity for official government statistical reporting.
